The Loan System
STILL CONTINUED AT THE
EMPORIUM.

The system of loaning goods to be paid for in stated weekly or monthly installments is a benefit to the purchaser and is a peculiar feature of our establishment. It is a project of our own, prepared for the accommodation of our numerous and increasing customers, and at the same time to protect ourselves against losses by any dishonest parties who might be inclined to take advantage of our desire to give a long credit to deserving persons of limited means. The system is of great value to parties desiring to commence housekeeping, or who may wish to replenish their dwellings this fall, but whose present means are so limited, that they cannot pay at once for which they wish to purchase.

This system gives time and provides for making payments at stated periods in the future. Many persons of limited means, or who have other present uses for their money, can pay in future installments for such articles as they may need for the furnishing of their house and not feel the expenditure. When the last payment is made the property becomes their own by a regular receipted bill of sale.

This system does not enhance prices like the old irresponsible credit system, when the honest customer has to pay for the bad debts of the less scrupulous, the unfortunate, or the dishonest who fail to pay! Under this system every customer pays for what he gets; we suffer no loss, and can afford to place our goods upon the market with the very lowest margin of profits.

By this system we are enabled to benefit the worthy of limited income and not injure ourselves. It is simply a system of guaranteed payments, the goods being for a specified time the guarantee of the obligation of the customer.

This system has been a practical working daily success at our EMPORIUM on BROAD STREET for years. Hundreds and even thousands of families having been placed in the possession of comfortable and even richly furnished dwellings, who but for this system of weekly and monthly payments would never have secured them.

Desirous of extending the benefit of this system to others equally worthy, we invite persons desirous of purchasing

HOUSEKEEPING GOODS
OF ALL DESCRIPTIONS, TO VISIT OUR
EMPORIUM

BY MARY CLEMMER AMES.

Go, glorious day!
Here while you pass I make this sign:
Earth swinging on her silent way
Will bear me back unto this hour,
And I will softly say! Once thou wert mine.

"Wert mine, O perfect day!
The light unknown soaring from sea and shore,
The forest's eager blaze,
The flaming torches that the autumn bore,
The fusing sunset seas, when storms were o'er.

"Were mine the brooding airs,
The pulsing music of the weedy brooks,
The jeweled fishes and the mossy lairs,
Wherein shy creatures, with their free, bright looks,
Taught blessed lessons never found in books.

"All mine the peace of God,
When it was joy enough to breathe and be,
The peace of nature oozing from her sod,
When face to face with her the soul was free,
And far the false, wild strife it fain would flee."

Stay, beauteous day!
Yet why pray I? Thy like mine, to fade;
Thy light, like yonder mountain's golden haze,
Must merge into the morrow's misty shade,
And I, an exile in the alien street,
Still gazing back, yearn towards the vision fleet.

"Once thou wert mine!" I'll say,
And comfort so my heart as with old wine.
Poor Pilgrims! oft we walk the self same way,
To weep its change, to kneel before the shrine
The heart once builded to a happy day,
When dear it died. I'll say: "O, day divine,
Life presses sore; but once, once thou wert mine."

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SELF ABUSE AND SOLITARY HABITS,
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS
Incident to Married and Single Ladies
SECRET AND DELICATE DISORDERS;

Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in youth, and the more advanced, at all ages, of
BOTH SEXES, SINGLE OR MARRIED.
DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 21 Endicott Street, Boston, Mass.,
is so arranged that patients never see or hear each other. Recollect the only entrance to his Office is No. 21, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.
DR. DIX
boldly asserts (and it cannot be contradicted, except by Quacks, who will say or do anything, even perjure themselves, to impose upon patients) that he
is the only regular graduate physician advertising in Boston.
TWENTY YEARS
engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to
Strangers and Travelers.
To avoid and escape imposition of Foreign and Native Quacks, more numerous in Boston than other large cities,
DR. L. DIX
proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.
AFFLICTED AND UNFORTUNATE,
be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of
FOREIGN AND NATIVE QUACKS,
who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by
QUACK NOSTRUM MAKERS,
through false certificates and references, and recommendations of their medicines by THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.
IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, alas! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S
charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

NEWPORT DAILY NEWS.

TUESDAY, Oct. 31 1871.

The Newport Journal.

Summer residents who wish a Newport paper during the winter and do not care for a daily issue, can have the Newport Journal, published once a week, sent to their address by leaving orders at this office. The Journal contains a full report of local news, will record all real estate transactions, and give especial attention to improvements in and about the city. Price two dollars a year.

A Hard Look for Thieves.

What is this world coming to, must, just at the present time, be the exclamation —not of honest people, but of rogues. The wicked are compelled to flee, that is a few of that number have seen fit to make their presence "scarce," while yet a few more would gladly flee if they could, but just now it is not convenient as their presence is needed and the restraining influence of law has persuaded them to remain.—In this latter class is Boss Tweed. Notwithstanding the what-are-you-going-to-do-about-it expression which he wears, there can be no doubt but that he wishes himself out of the scrape as ardently as any other criminal ever wished himself out of prison. Every day the plot thickens around the arch plunderer and we are greatly mistaken if he does not yet have to answer for his stealings. Meanwhile some of his co-adjutors, seeing that their chief is in trouble, have fled. Woodward, Ingersoll and Harvey are among the missing. They know well that if called to an account for their crimes, they will have more than they can answer for, consequently, considering discretion the better part of valor, they have concluded to let the "Boss" fight it out alone, while they make themselves safe, away from the eyes of man.

But our New York thieves are not the only criminals that are in trepidation. That "twin relic of barbarism" is in danger, imminent danger of a downfall. Brigham Young, its prophet, is a fugitive. Hawkins, one of his prime ministers, is a convicted criminal and three years service in the penitentiary is his punishment; better have been for life. Indictments have been found against Brigham Young's son for murder and other crimes. Others are also in equal danger. From all of which it is evident that a crisis is impending over mormondom. The march of civilization has made great inroads upon this peculiar institution within the last two years. The "Gentiles" are fast out numbering the Saints. The Pacific Railroad was the death blow of Mormondom, but its disciples have escaped their impending fate till now. Now we hope the last vestige of polygamy will be swept away, and the nation be freed from this foul stain which it has so long harbored within its borders.

Secretary Boutwell's Lecture.

Secretary Boutwell in his lecture in Boston Thursday evening on topics affecting the public interests, said in regard to the labor question that the laboring classes had a right to make combinations, but he thought the influence of such organizations must be temporary, and that they were not comprehensive enough to elevate the laboring people of the world or of the country. He thought they spent too much time upon the question whether they are to labor six or eight or ten hours a day. As laborers and employes come to a better understanding of their mutual interests, this is one of the questions that will be settled by the course of events, and very likely it will be so settled that men in particular pursuits may labor only six hours a day, as in the mines and in occupations which require particular mental attention. But in other pursuits, where the industry is varied, where the laborer turns from one thing to another through the different hours of the day, he may perform labor for more than eight or ten hours a day without injury to his health; and the labor organization commit a wrong; not an error merely, when they attempt to dictate,—not to the employers,—when they attempt to dictate to the youth of the country who may and who may not learn a trade. As far as he could see there was but one way for the artisans to work together for a general result, and that is by cooperation.

He saw but one way by which the laboring class as a whole were to be elevated so that the system might become universal, and that was by education.

On the land question he thought it ought to be prohibited by law for any man to determine how land should be used after his death, and that a limit should be put to the power of railroads to own lands for other purposes than the accommodation of their own business.

He thought the public debt should not be left for posterity to liquidate, but should be paid in twenty years.

Journalistic Notes.

One of the best papers on our exchange list is the Washington National Republican.

Harper's Weekly claims a circulation of three hundred thousand copies.

The Independent Statesman published at Concord N. H. is an eight page paper, well filled with interesting and valuable matter.

One of the handsomest and most readable of all the religious newspapers is the Illustrated Christian Weekly.

Mr. Gladstone will shortly commence a series of articles in Scribner's monthly.

Mr. W. D. Howells commenced the editorial charge of the Atlantic Monthly with the November number. It is presumed that Mr. Fields' will now retire from business life.

The New York Times still continues to pour its broadsides into Tammany. Such a determined contest must yet result in victory to the assailants.

The Chicago papers cannot be killed by one fire. In three days after the conflagration every daily in the city was again in operation.

Colby University now admits girls within its clasic walls. The present freshmen class contains one member of the gentler sex, by the name of Mary Caffrey Low, and what is more, this same young lady has taken the first prize for best preparation for college.—The young men of that institution will have to look well to their laurels.

Mr. Evarts has declined the nomination for the N. Y. Assembly and of course will not accept the retainer offered by Brigham Young.

Boss Tweed.

The New York Globe, which is independent in politics, thus remarks upon Boss Tweed, the head sachem of Tammany, and leader of the democracy of New York and Connecticut:

Slowly, yet surely, has the hand of justice reached forth and rested upon Wm. M. Tweed. Today the head and front of all the infamous system of fraud, perjury, violence, extortion, forgery, insolence, corruption, debauchery, and shameless corruption of every degree has come into court and been held to answer for his crimes. Good qualities of head and heart has the old man, but they cannot save him now. He is and has been part and parcel of the system which has cursed us, and he cannot shirk his responsibility. The men who have been about him, who have sworn loyalty to him and have cast their fortunes with his, have been the boldest plunderers of the public treasury, and the most insolent in bearing towards honest men.—Mr. Tweed has rested upon them for power, and has shared with them the spoil; and Mr. Tweed has now to answer for the long black record which the years have treasured up against him and his crew. Mr. Tweed is the out growth of a system. He began his political career as a fireman in days when to be a leader of a fire company was to be a leader in the democratic party and a shining light in Tammany. He belongs to, and is the fruit of, a school where little has been taught or thought of public virtue. He has been reared and trained with that party of politicians who look upon the state as upon a beast of prey. Men who have looked upon controlling a primary with intimidation and violence as a good joke, men who have not scrupled to stuff a ballot box, alter an election return, or forge a bill or warrant on the treasury. There is a long roll of them, beginning with Dick Connolly, the slippery Richard, now laid up on the shelf, and one by one they will have to go, and make way for better men and a pure system.

Increase of Emigration to the Northwest.

The increased publicity given to the lands of the Northwest has resulted in a remarkable emigration thither. Within six months it is stated that over 30,000 new new settlers have located in Minnesota, along the Red River and on the line of the North Pacific Railroad. Some curiosities of settlers' life appear occasionally—as for instance, an Eastern editor in his travels there came upon a large piece of newly ploughed ground. Near by was a small tent. A pot of beans was simmering over a wood fire in front of it. There was a haystack in the rear of the tent; an oxteam attached to a rude cart in front of it. This was the home of two men who left Boston last June to seek new homes in the West.—They made their selection of lands without reference to any railroad lines: but they will be only a mile from the Northern Pacific. One of them was wielding the yardstick in Hanover street Boston in June last; now he is proprietor by pre-emption of one hundred and sixty acres of land.—He has thirty acres broken, from which he will harvest at least fifteen hundred bushels of oats next July, if the season is propitious.

Two years hence this farm, with the improvements, located so near the railroad, will be worth from $2,000 to $3,000.

"I haven't seen a single lonely hour since I came here," said the ex-dry goods clerk. His quarters were small, his accommodations limited. He handed me the tea in a tin cup, and asked me to take a pinch of pepper from a brown paper and to help myself to crackers from a bag.—Young men who go at it in that way are pretty sure to win."

The Congregational church in Bristol, having been remodeled and improved, was dedicated on Friday evening, Oct. 27.

Rev. Dr. Bellows tells the New Yorkers—and we repeat it to the rural districts—that "there is no sin so great as political corruption except political indifference to it."

Somebody once asked Tom Corwin if he had heard a certain story of Louis D. Campbell's. "Was it about himself?" inquired Mr. Corwin. "No I believe not." "Well, then, I never heard it," said Mr. Corwin, gravely.

A gentleman in the wholesale liquor line advertises that some persons have been circulating the falsehood that his whiskies contain foreign and unwholsome matter, and adds: "To those accustomed to use these whiskies the slander needs no refutation." True; they rest quietly in their peaceful graves, and the idle tale of the traducer impresses them not.

A mamma in the rural districts lately gave her five-year old hopeful an outfit of fishing tackle. Soon she heard a shout from Willie, and, running out found one of her best hens fast winding up the line in her crop, whither the hook had preceded it. Willie observing the troubled look of his mother, quietly remarked: "Don't worry mother; I guess she will stop when she gets to the pole."

The bark J. H. Bradley, of Bucksport, Me., from London for Philadelphia, was run down off the Isle of Wight, by a steamer, and a portion of the crew perished.

Thirty of the thirty-three men who were in the mine at Seaham, England, when the explosion occurred, are dead. The pit is on fire, and another explosion is feared. There is great excitement among the miners and their families.

Personal.

Cardinal Antonelli, the Papal Minister of State, is very sick.

George Eliot's new novel is, it is said, to appear in a new fashion, namely, in eight monthly parts 5s. each.

The remains of Sir Roderick Murchinson were buried Friday. Among the distinguished persons present were Mr. Gladstone and Professor Huxley.

The title of the second volume of Mr. Ruskin's collected works is "Munera Pulveris;" and the third volume will consist of the "Lectures on Sculpture," which he delivered at Oxford.

Louis Napoleon is said to have recently answered a letter from a little boy of Wilmington, Del., who in some strange way has conceived great admiration and sympathy for the French Cæsar, thanking him for his friendly words, and expressing the hope that his little friend might live more quietly and happily than himself.

The Rev. Robert Collyer, of Chicago, who has been bored with frequent invitations, since the fire, to lecture about it, declines, "because the pain of it still presses too hard upon us all; and then I should feel ashamed to take advantage of the capital market for such wares just now, and so get a big price for a poor article." Some people expect a man to "give his views" on everything that happens to him, from love to a tooth ache.

About Home.

Cannon street is being graveled.

How is this for the last day of October!

Samuel Smith, the florist, has established a branch store on Broadway New York.

The steamer Eolus makes her last trip for the season tonight.

The Lancashire Lass is coming to Newport tonight. She may be found at the Opera House.

Stephen H. Norman Esq., Cashier of the Aquidneck National Bank in this city, left this morning for Connecticut, where he will be absent a week or more on a vacation.

The schooner Ann E. Carl, which put in here on the 23d inst., in consequence of her crew refusing to go further, sailed this morning for her destination, Seville, Spain.

Captain Hammond arrested two deserters in Providence, Saturday. They were men who had "obscotulated" from the 15th U. S. Infantry some six years ago.

Rev. Dr. White, rector of Trinity, has commenced building on Ayrault street. He will reside for the winter at LeRoy's cottage near the Ocean House.

The American Exchange & Review, published in Philadelphia, is the best magazine for business men of all classes, of which we have knowledge.

The Salem Observer accounts for the pleasant manners and success in life of Hon. George H. Norman, of this city, in the fact that he began his career as an editor.

The Newport Brass Band rent the air last evening with some sweet music, at the residence of Mr. William H. Cotton on Spring street.

From one of our exchanges, we learn that the brig Clio, from London for this city, was obliged to put into St. Johns, N. F., to repair, being in a leaky condition. Fifty tons of her cargo were thrown overboard.

The Cliff Cottages close today. One half the families that have occupied them during the summer have remained to this time. We understand, also, that most of the cottages are already let for another season.

The "Yokohama Tea House", Wm. Alderson & Son, proprietor, has been virtually removed to their store, corner Pelham and Thames street. In the window may be seen that "nobby" little engine in full operation grinding coffee and sending forth its steam through the nose of that mammoth coffee pot.

Menhaden.—The fishing boat, Abby Ann, of this city, took two thousand barrels of Menhaden at one haul of the seine, in the neighborhood of Narragansett Pier, one day last week. This surpasses anything on record in the fishing line. A large number of Newport fishermen are engaged in catching these bony fellows at the present time, and their success never was better.

"Look out for a Cold Winter."—Why? Because two whales have been seen in Newport waters. Old fishermen say that it is a sure sign of a cold and severe winter approaching. They ought to know of course. Sunday these same whales took pity on the Pier people, and as they had no church to attend, amused the denizens of that quarter by blowing, spouting and playing in full view of the shore.

Accident.—A carryall, containing four ladies and owned by Mr. Thomas Peckham, of Middletown, broke down on Washington Square this morning. The accident was caused by a bad flaw in the axle-tree and it was very fortunate indeed that no one was hurt, as the carriage, like the deacon's "one hoss shay" went all down in a heap and the horse remained perfectly still while the ladies were being extricated. It was a new carryall, built by a Mr. Richmond, of Fall River, and it was the opinion of many on the spot that he deserves to be severely censured for selling a carriage put together in such a *flimsy way* as this one.

Fall River.

The News says on Saturday afternoon, while Mr. Jordan K. Piper, Superintendent of the Merchants Mill, was assisting in lowering, by means of a tackle and fall, an empty machinery box, from the fourth story of the tower of the mill, the box swung round and struck him in such a manner as to knock him out of the door, and he fell to the ground, a distance of about 45 feet. Mr. Jennings, the agent of the mill, being near by at the time, immediately hastened to his side, and heard him utter several times, in a faint voice, the words, "Oh dear! oh dear!" The unfortunate man was at once removed to his residence, a few rods distant, but breathed his last almost immediately. He was in the 54th year of his age, and leaves a wife, two sons and a daughter.

Mr. Piper removed to Fall River about two years ago, and became Superintendent of the Merchants Mill. He was a very worthy man, and a good citizen, and was held in high esteem by all who enjoyed his acquaintance. The news of his sudden death, and the shocking manner in which it occurred, spread a gloom over the community, and was a subject of fitting remarks in some of the pulpits Sunday.

Vineyard Grove.

Over forty cottages are now under construction at Vineyard Grove. Otis Foss is about having a store built, 24 by 40 feet, on the lot adjoining Gregory's shell store and museum at the Highlands, and will next season have both this and the old stand fully stocked.

Rev. William Livesey has entered upon his parochial duties, and religious services and a Sunday school are regularly held in the room occupied by the public school. The latter numbers 34 scholars.

Mr. Talbot has associated himself in business with J. H. Gorham, and they will carry on a real estate agency under the style of J. H. Gorham & Co.

The planing mill at the Highlands is driven to its utmost capacity with business.

Mr. Homer Martin has recently painted a picture of Duluth, Minnesota, for Jay Cooke. The picture is now at the rooms of the Northern Pacific Railroad, on Broadway for private exhibition.

The young man left for his childhood's home.

Literary Notices.

The Atlantic Monthly for November contains a very interesting and learned article on Tennyson and Theocritus, which shows in a very striking manner the obligations of the English to the Greek Idyllist. It is from the pen of E. C. Stedman, and will command a large share of attention both in England and America.

The Phrenological Journal is represented on our table by its November number. The contents include: James McCosh, president of Princeton College; Alexander H. Stephens; The Tagals and Visayans; Healthy or Diseased Children; His Recommendations, or the Boy who got a Situation; etc. The publisher offers the last three numbers of 1871 free as a premium to subscribers. S. R. Wells, 389 Broadway N. Y.

Blackwood's for October is a valuable number. The article on American books is well worth the price of the magazine. It contains besides, Fair to See—Part X, Cornelius O'Dowd, New Books, Trouville and the Calvados Shore, The Maid of Sker,—Part III, Published by Leonard Scott & Co.

The American Educational Monthly is one of the best of the magazines pertaining to schools. Its articles are always brief, and of much interest, especially to those interested in our system of education. The November number contains a long list of articles most of which have a practical bearing and all of which are on the topics of the times. J. M. Schermerhorn & Co., publishers N. Y.

How Paris Appears Today

The Rev. Mr. Dana, writing from Paris, says:

You can hardly believe you are in the nineteenth century and reading of what occurred in a city which claimed to be the centre of modern civilization and refinement. But while this narrative is doubtless all true, you can notice now nothing to remind you of its darkest features. The streets are crowded with gay and seemingly happy people. The cafes are open and thronged, the shops are brilliant and attractive. Paris indeed looks, saving the desolate remains of burnt buildings, as if nothing had happened. It certainly is the nature of the people soon to forget. Humility and sadness are never manifested by Parisians. The papers, however, show more faithfully the real condition of things, and of this you can judge by these subjoined statistics. A paper published by the radical members of the town council of Paris, on the industrial and commercial state of the French metropolis says, "In certain branches of industry there is such a scarcity of skilled hands, that the orders given, though few, cannot be carried out, and customers being thus disappointed, transfer their patronage to England, Belgium, Germany, and even the United States." It adds further that more than 100,000 workmen, killed, prisoners, or fled, are absent from the city. Twelve thousand out of 21,000 shoemakers have been killed or fled the metropolis. Ten thousand of the Paris tailors are missing. Six thousand out of fifteen thousand cabinet makers are missing. Fifteen hundred out of 8,600 workers in bronze and gas fittings are now absent. Three thousand of the plumbers, slaters and workers in zinc have not made their appearance, and are among the missing. This paper goes on to state that all the industrial interests of Paris are in imminent peril, and certainly it would seem as if the immediate future of the metropolis or country was not very promising. Meanwhile Parisians tell you with the utmost nonchalance that they have no confidence in the present government. They talk composedly of another change in affairs, and with great bitterness of spirit of another war with Germany. Strange people, their recent experience appears to have wrought in them no more or just views of their own needs, or of their duties to self and to the family of nations whose peace it seems to be their mission ever more to menace. The spirit of the commune is not crushed out nor do its abhorent principles lack advocates, even after this bloody carnival to which they gave rise. The agricultural districts suffered but little during the war, and they contribute what little real prosperity there is to-day in France. It may be that a better state of feeling will gradually control the people, and that France will devote herself to repairing the damage and loss occasioned by the war. At all events, just now nothing is so much needed in Europe, nor by the great mass of its inhabitants so longed for, as a stable peace.

The Russian government is taking means to further the cause of education throughout the Czar's vast dominions. And, judging from the statistics published, there was great need of some such action. In 1850, with a population of 65,000,000, Russia had but 450,000 pupils in her schools. According to the last census her population amounts to about 75,000,000 and if the increase in school attendance kept pace with the population, the number of children attending school would at this time be only about half a million in the whole empire. But in reality there has been a falling off in the school attendance since the teachers have been confined to the exclusive use of the Russian language, the people in the western part of the empire having a decided aversion for the national tongue. Russia has excellent colleges; what she now requires is to bring within the reach of all the means of obtaining a common-school education.

Some ladies in Texas were desirous of doing honor to the editor of a local journal. So they presented their hero with an embroidered shirt which contained a splendid history of Texas, and also pictures of the fruits and cereals of the state, all worked in red worsted. Now this particular editor had never worn a shirt and supposed the brilliant specimen before him to be a banner for an approaching temperance procession. In his speech of thanks he puzzled the lady donors by declaring that he would "fling it out forever to the breezes of heaven, that they might kiss its folds, and till his hand palsied it should never be trailed in the dust." The ladies blushed and regretted having made it so long. Being informed of the purpose of the gift, the editor wore it over his coat, to the great edification of the boys of the town, who followed him in regiments, studying the history of the fine arts and of Texas behind his back.

"There's Nothing Like It."

"Don't wish for better." "Better than any other we have used." "Like it much." "Can't speak too highly of it." "There can be no fault found with it." "Can testify to its superiority." "Don't use any other." These are a few quotations from the hundreds of testimonials in favor of Doolzy's Yeast Powder, which is the only chemically pure, harmless, healthy and nutritious article of the kind in market. Perfectly reliable, easy to use, convenient and recommended by all. For sale by grocers.—Doolzy & Brothers, Proprietors, 69 New Street, New York. n&j

☞ It is a broad claim in an article of daily and universal use, that it is better and cheaper than any other; but the public has endorsed this claim for boots and shoes made with Cable Screw Wire. The immense demand of the past is steadily augmenting. In our paper may be found a card in relation to these excellent goods.

It is said that if a puff of air were to be blown into a vein of an animal, death would instantaneously follow, because circulation would be stopped.—The blood makes the entire circuit of the human body every seven minutes, and whenever this circulation is impeded or any of its channels are clogged by impurities which ought to be carried off, disease follows—fever or a disorder of liver or kidneys, or scrofula, or dyspepsia. To get at and remove the source of the difficulty use the old and infallible blood purifier, Dr. Walker's California Vinegar Bitters. oct16-1w

The Means of Escape.

The fall has many perils for the weak and feeble, and its sudden atmospheric changes are trying to the constitutions of even the robust. The chilling temperature of the nights, as compared with the almost summer warmth of the days, necessarily exercises an unhealthy influence on all who are exposed to it. Hence dysentery, diarrhœa, intermittent fevers, bilious attacks, and derangements of all the secretions, are common at this season. The true way to escape them is to meet the causes with a protective and invigorating medicine. Hostetter's Stomach Bitters are designed for this exigency.—This powerful vegetable specific relieves the system of all acrid humors, purifies the fluids, tones the secretive organs, promotes healthy evaporation through the pores, increases the activity of the digestive functions, cheers the spirits, and regulates the bowels. To do this is to make the whole body vigorous, and render it proof against the vicissitudes of temperature, and against malaria. A course of the great tonic and alterative is therefore in all cases advisable as a preventive at this season. If, on the other hand, the mischief is already done, and intermittent or remittent fever is actually present, or the liver, bowels, or stomach disordered, there is no medicine so certain to effect a quick and thorough cure as this harmless and agreeable preparation.

Messrs. FLINT & CO.—Gents:—You ask for my opinion of Old Dr. Warren's Quaker Bitters. As I have never used them I cannot speak from personal knowledge, but the general speech of the people is marked and strong in their favor. I am so far satisfied that they are a pure, safe and effective alternative and tonic, that I have ordered a case of them sent to my aged mother. Their reputation keeps pace with their sales, and as they are scientifically compounded of the best ingredients, they are not to be classed with the great variety of nostrums palmed off on a suffering public by quacks.

Yours truly, Hon. SIDNEY DEAN.

FIFTY YEARS AGO.

What changes in the world we've seen,
Since fifty years ago, or so;
What revolutions there have been,
A host of facts there are to show.
To travel fifty miles a day,
Our fathers found a task indeed;
Two hundred now—or more,—we may
Be drawn by the fierce Iron Steed.
The Boys then "dressed" in home-spun "Clothes,"
With cow-hide shoes upon their feet;
But now they're "Clothed" at George Fenno's,

BETTER AND CHEAPER
THAN ANY OTHER
Boots or Shoes:
THOSE FASTENED WITH
CABLE SCREW WIRE.

BETTER—Because they are more Pliable, more Comfortable, are Water-proof, and are warranted not to Rip or Gape.

CHEAPER—Because, while their first cost is not in excess of sewed or pegged work of a like grade, their Durability is far greater, they preserve their Shape much better, and the metallic fastening insures a more Equal Wear.

Equally applicable to light and heavy work.

The immense demand having called forth imitations, consumers should be sure that every boot or shoe bears the Patent Stamp.

PROVIDENCE, R. I., Feb. 11, 1870.

I have used "Dr. Bullock's Nephreticum" for several months past for a disease of the Kidneys and Bladder of ten years standing. During all that long and gloomy period I suffered at times attacks of the most excruciating pains and tried all kinds of medicines and many eminent physicians, with little relief at times, yet with no permanent, lasting benefit. At last I was induced to try "Nephreticum," and after continuing its use for a considerable period of time, I began to be benefited, and now I feel satisfied that I have obtained permanent, and, I trust, lasting relief. I still take "Nephreticum" and give to my friends. For a year past I have had no severe attacks of disease. I feel it has given me a new lease of life, and I most cheerfully and confidently recommend "Nephreticum" as a reliable, safe and sure remedy for diseases of the Bladder and Kidneys.

INDICTMENTS FOUND AGAINST THE VOUCHER THIEVES.

NEW YORK, Oct. 30.

In the Court of General Sessions, today, the Grand Jury found an indictment against Edwin M. Haggerty and Charles Baulch, the alleged voucher thieves, for larceny and burglary. The following is an abstract from the indictment: "That said Haggerty and Baulch, on the 16th of September, burglariously broke into the building and office of the Controller of the city and county, with intent to steal divers papers, documents and records, the property of the Mayor, Aldermen and commonalty, to wit: a voucher dated August 18th, 1870, of one George S. Miller, for carpenter work in the new court house, for the payment of $40,340; a voucher dated Aug. 12, 1870, of A. J. Garvey, for repairs to the court house, for the payment of $67,068 89; a voucher dated June 30, 1870, of C. D. Bollar, & Co., for fitting up various armories, for the payment of $37,072 16; a voucher dated June 24, 1870, of A. J. Smith, for carpets and shades for drill rooms, for $30,441 42; and that the prisoners did feloniously break into said public building and office and steal said papers. There are two indictments against each of the prisoners—one for grand larceny and the other for burglary.

ONE OF SWEENEY'S FRAUDS.

NEW YORK, Oct. 30.

It is stated that Sweeney bought a building on Thirty-fourth street, leasing the upper part as armories, having the lease antedated one year, and receiving thirty thousand dollars therefor. The armories have never been occupied. Hank Smith, a leading Republican, draws the money, so that Sweeney's name shall not appear.

THE STRUGGLE WITH MORMONISM,

The Outward Excitement Abating.

BRIGHAM YOUNG MOVING ON THE MEXICAN LINE.

NEW YORK, Oct. 30.

A Salt Lake special says the excitement yesterday somewhat disappeared from the surface, but still there is a very deep feeling among the Mormons. The Herald characterizes the arrest of Mayor Wells as another link in the chain of conspiracy aimed at the existence of the Mormons. It says the indictments are all founded on the testimony of Hickman, who committed all the crimes.—At least 1,000 men and women visited the prisoners at Camp Douglass, including all the leading Mormons. The sermons at the tabernacle were quite subdued in character.

Brigham Young is still going southward, and will not return before spring. He travels by night and will probably stop in the southern extreme of Arizona.

INSURANCE!

After paying all Liabilities by the Chicago Fire, the Insurance Companies that we represent will stand as follows:

ASSETS.

PHENIX of Brooklyn, N.Y.	$1,400,000
Queen of Liverpool and London	10,000,000
Imperial of London	8,000,000
Connecticut of Hartford	400,000

Reliable Insurance given for One, Three or Five Years, on Buildings, Merchandize and other Insurable property.

oct20 — LANGLEY & ENOS.

THE OLD HARTFORD

Insurance Company.

(INCORPORATED IN 1810.)

Assets	$2,700,000
Losses at Chicago	1,250,000
Net Assets	1,500,000

Owing to the large increase of business I have found it necessary to add another to my list of Companies, and have selected

THE HARTFORD

as one of the oldest, best known, and soundest in the country. Facts connected with the Chicago fire show the folly of trusting to the numerous small corporations that are free to take premiums but unable to meet losses in the day of calamity. Look at the following list, with the assets, *after* paying Chicago claims:

ÆTNA	$4,000,000
INS. CO. OF N. AMERICA	3,000,000
HARTFORD	1,500,000
PEOPLES	600,000

POLICIES promptly issued on all kinds of Insurable property, at reasonable rates. No competition attempted with weak kneed, and wild cat institutions.

L. D. DAVIS,

120 — DAILY NEWS OFFICE.

Insurance!

THESE are the days that try the Insurance Companies. Among those that have funds with which to pay losses *promptly* are the following:

Ætna, of Hartford, Assets	$5,782,635
North America, of Phil. "	3,050,535
Peoples, of Worcester,	888,656

These old Companies have withstood many a storm before this. The Ætna has paid losses to the amount of $28,000,000, and the Insurance Co. of North America $23,500,000. This last Company dates back to 1794, and has an honorable record, equal to the Ætna itself. The fire at Chicago will not take much more than half the surplus of the Peoples Insurance Co., to say nothing of its capital.

Policies may be secured in either of the above at fair rates and losses will be as promptly paid as heretofore.

NEWPORT DAILY NEWS

Beautifying Yards—Practical Hints.

Now in October and November is the time to arrange grounds, and put out hardy bulbs—such as Crocuses, Tulips, Lilies, Hyacinths, and Crown Imperials—for spring flowers. But, in ordering them, unless you have a fortune to spend in this way, don't get the high priced named bulbs, which are in most instances no better for practical use than the older cheap varieties. Order the different colors—as blue, yellow, red, white, clouded, etc.—of good size; and you will be more sure to be satisfied, at moderate prices. This, too is the best way in ordering all kinds of flowers, an seeds. Floriculturists, by hybridizing, have a system of making money by obtaining new varieties, to which they give name and glowing descriptions, that perfectly bewilder the inexperienced.

Make the beds or mounds for bulbs of rich mellow earth, and plant them from one to two inches deep, according to size. Then in the spring about the time of planting corn, sow seeds of showy annual flowers, such as continue a long time in the blossoming stage, in a warm rich bed, shading it from the hot sun, and sprinkling it with water in dry weather, to keep it moist until the seeds come up and get root hold. When the bulbs are about done blossoming, transplant the annuals, and put them in the same beds; and the yard will glow with beauty until the frosts of autumn. This process will keep the bulb-beds free from weeds, and the bulbs will be in a good condition to blossom again the next spring, without much care or attention. A covering of manure in the fall, however, will act favorably. Just pursue a common sense method, and there is no more trouble in raising fine flowers, especially from bulbs, than in growing good potatoes. Ample yards for recreation, greatly promote the union, refinement and happiness of the household.

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile **Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these **Bitters** have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.
